HOW WE WORK WITH A PLANT'S PURCHASE DESK

- RFQs by email, WhatsApp or the website form; each one gets a reference number and a written acknowledgement.
- Every line is quoted with make, rate, GST and delivery, so quotations compare directly with other vendors'.
- Items are supplied to the specification on the order: poles and curve on MCBs, coil voltage on contactors, cores, size and armouring on cable, SWG and insulation class on winding wire.
- Partial and repeat orders, kit supplies for shutdowns, and consolidated monthly supplies against a rate contract are all routine.
- Vendor-registration forms, portal uploads and declarations are completed and returned with the supporting documents, usually within one working day.
